Machine

1. Enter Scene Mode: Press SCENE
2. Pads with scenes assigned to them will glow blue. Select scene.
3. Press and hold SCENE key to enter edit mode.
4. If the pad of the active track contains a scene, the pad will exhibit a violet colour.
5. The number of parameter locks associated with the scene are shown in the display.
6. Press and hold the pad for the scene macro.
7. The pads of drum tracks containing parameter locks will glow half-bright red and flicker.
8. If a scene contains FX track parameter locks, the FX track LED will flicker.
9. Select the tracks by pressing TRACK +PAD.
10. Press and hold the scene pad and go through the parameter pages and copy the values into this sheet.
